PRESS RELEASE

FOR IMMEDIATE RELEASE

Lenawee County Moves to Protect Public Health with Enforcement of Environmental Health Code

December 18, 2019

The Lenawee County Health Department is seeking injunctive relief to require several property owners in Medina and Hudson Townships to comply with the water supply and sewage disposal requirements of the Lenawee County Environmental Health Code. This action comes after a lengthy period of non-compliance on the part of the property owners. The requirements for these property owners are the same requirements that apply to all other residents of Lenawee County. The requirements of the Lenawee County Environmental Health Code, to supply clean water and properly dispose of sewage, are in place to protect the public health of all citizens of Lenawee County.
