## IMPORTANT COVID-19 THERAPEUTICS UPDATES FOR HEALTHCARE PROVIDERS

Dear Healthcare Partners,

\*If you have provided us with an email address, this information has also been emailed to you.

It is also posted on our website\*

Please see below for important information from the Michigan Department of Health and Human Services (MDHHS):

### COVID-19 Outpatient Therapeutics Toolkit

MDHHS has developed a COVID-19 Outpatient Therapeutics toolkit to provide condensed, easy to use information on outpatient medications for the treatment and pre-exposure prophylaxis of COVID-19 in certain high-risk patients. This toolkit does not include all information found in the Emergency Use Authorizations (EUA), [Therapies | COVID-19 Treatment Guidelines \(nih.gov\)](#) All providers should consult the applicable EUA Fact Sheet for important prescribing drug information such as drug interactions, adverse reactions and specific EUA criteria not included in each individual medication section below.

The purpose of this toolkit is to provide a clinically focused overview of outpatient medications used to treat mild to moderate COVID-19 in patients at risk for hospitalization or death and for pre-exposure prophylaxis (prevention) in certain people with moderate to severe immunocompromising conditions and for the few who have experienced a severe reaction to the COVID-19 vaccine. It is designed to provide clinicians with quick reference guides for each of the medications currently authorized for outpatient use.

**The toolkit can be found at:** [https://www.michigan.gov/documents/coronavirus/HCP\\_Toolkit\\_-\\_Outpatient\\_Therapeutics\\_March\\_2022\\_750087\\_7.pdf](https://www.michigan.gov/documents/coronavirus/HCP_Toolkit_-_Outpatient_Therapeutics_March_2022_750087_7.pdf)

### HRSA COVID-19 Uninsured Reimbursement Program Closure

The HRSA COVID-19 Uninsured Program (UIP) will soon stop accepting claims due to a lack of sufficient funds. The program will continue to accept claims for testing and treatment until 11:59 PM on March 22, 2022, and claims for vaccine administration until 11:59 PM on April 5, 2022.

Any testing and treatment claims submitted in the Portal after March 22, 2022, will not be adjudicated for payment.

Any vaccine administration claims submitted in the Portal after April 5, 2022, will not be adjudicated for payment.
