**Shortcuts and suggested settings for the Reecom 1630**

**Alert Mode-** Press “PROG” key until you hear beep. Press one of the “REVIEW” keys until Alert Mode is displayed, then press “ENTER.” Press the “REVIEW” keys so that “Alert Enable” is flashing, then press “ENTER” to confirm. Either “Voice” or “Siren” will now be flashing. Use the “REVIEW” keys to make the “Voice” icon flash, then press “ENTER.” Finish by pressing “PROG” key.

**Channel Select-** Press “PROG” key until you hear beep. Press one of the “REVIEW” keys until Channel Select is displayed, then press “ENTER.” Press the “REVIEW” keys until “Ch: 3” is displayed, then press “ENTER.” Finish by pressing “PROG” key. (Press the “STOP” key to turn sound off if still on)

**County Code-** Press “PROG” key until you hear beep. Press one of the “REVIEW” keys until “Enter County” is displayed, then press “ENTER.” Press one of the “REVIEW” keys until “Single County” is flashing, then press “ENTER.” Six zeros should show up on the display with the first two flashing. Press the “+ or –“ key until the first two digits are **02**. Press the “REVIEW” key so that the two middle digits flash and use the “+ or –“ keys to display **60**. Lastly, press the “REVIEW” key so that the last two digits are flashing and use the “+ or –“ key to display **91**. Press “ENTER” once, then “PROG” twice to finish.

NOTE: After finishing, you can review your county code by pressing the “REVIEW” key. The Lenawee County code is **026091**, and should be in the 1<sup>st</sup> location “County 01.”

**Defeat Siren-** This feature allows you to turn off the alert beeper, so you are not disturbed by an alert that you consider is not critical. Only some alerts can be turned off, such as a Special Weather Statement. Other alerts, such as Tornado Warning, cannot be turned off. Some alerts, such as Hurricane Warning or Volcano Warning, can be ignored because they would never be issued in Lenawee County. Instructions for using the Defeat Siren feature start on page 23 of the instruction book.

**Time & Date-** Make sure radio is off by pressing “STOP” key. Press and hold “ENTER” key until you hear a beep, you will see “Set Clock.” Press “ENTER” key and hour digits will flash. Use the “+ or –“ keys to change hour. Press the right “REVIEW” key then change the minutes using the “+ or –“ key. Press the “ENTER” key to store your time setting. Now press the right “REVIEW” key so the display reads “Set Date.” Press the “ENTER” key and the month will flash. Use the “+ or –“ keys to set the month, then press the right “REVIEW” key to display the date. Use the “+ or –“ keys to set the date, then press the right “REVIEW” key to set the year using the “+ or –“ keys. Press “ENTER”, then “PROG” to finish.
