**UPDATE: Reportable Diseases in Michigan Lists and Health Care Professional's  
Guide to Disease Reporting in Michigan for 2023**

The "2023 Reportable Diseases in Michigan" list is Michigan's official list of reportable conditions as mandated by the Michigan Public Health Code [Public Act 368 of 1978, 333.5111]. Section 333.5111 mandates that MDHHS annually review, update, and publish the list on the department's website. Michigan's reportable disease requirements are updated yearly to reflect changes in national reporting guidance from the Centers for Disease Control and Prevention and the Council of State and Territorial Epidemiologists. Changes to the Michigan requirements may also reflect updated laboratory testing capabilities, requests for epidemiologic data, and contacts for local health departments and laboratories. A summary of the changes to the 2023 Michigan Reportable Disease List and the Health Care Professional's Guide to Disease Reporting is available at the following links:

- [Michigan Communicable Disease Surveillance and Reporting Changes: 2023 Summary](#)

**Please report (by phone or fax – form linked above) any reportable diseases, unusual occurrence, outbreak or epidemic of any disease or condition, including healthcare-associated infections to the county health department in which the patient lives. If there are questions please contact or the Michigan Department of Health and Human Services at phone: 517-335-8165 or the Lenawee County Health Department at phone: 517-264-5243.**
